REPLY COMMENTS OF
FOUCE AMUSEMENT ENTERPRISES, INC.

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Fouce Amusement Enterprises, Inc. ("Fouce"), licensee of television broadcast station KRCA, Riverside, California, files this Reply to the Comments of Community Cablevision Company ("CCC") in the above-captioned proceeding. Although CCC opposes the proposed amendment of Section 76.51 of the Commission's Rules to add Riverside to the communities already listed as part of the Los Angeles market, it provides absolutely no plausible support for that opposition, and the Commission should promptly make the proposed amendment notwithstanding CCC's Comments.

First, CCC completely ignores the Commission's prior precedents on the standard to be applied in adding communities to hyphenated market designations. See Fresno-Visalia, California, 57 R.R.2d 1122 (1985); Orlando-Daytona Beach-Melbourne-Cocoa, Florida, 102 FCC 2d 1062 (1985). Its Comments provide no basis whatsoever for questioning the conclusion, described in the Commission's Notice of Proposed Rulemaking in this proceeding and

discussed further in Fouce's Comments, that the four factors spelled out in those cases all strongly favor the inclusion of Riverside in the Los Angeles market designation.

Instead, CCC opposes amending the Los Angeles market designation on the ground that doing so would "make it easier for KRCA to obtain must-carry rights" in cable communities within the Los Angeles ADI, of which it is a part. This result, however, is precisely what Congress mandated in Section 614(f) of the Cable Act of 1992, by requiring the Commission to implement "necessary revisions to update Section 76.51" of its Rules. Although CCC has tried to overturn, defer or avoid its statutory and regulatory must carry obligations in a variety of ways (including filing unsuccessful injunction actions and filing the "Petition for Emergency Special Relief" provided as Attachment 1 to its Comments), those obligations remain. Since CCC's system is within the same ADI as Riverside, KRCA has rights to carriage on that system. Section 614(f) of the Cable Act, as implemented by the Commission through rulemaking proceedings such as this one, is intended to facilitate the elimination of any copyright royalty obstacle to the enforcement of such rights.

As described in Fouce's Comments, eliminating that obstacle is fully justified here. Riverside is virtually surrounded by San Bernardino, Corona and Fontana, the other communities included in the market designation. KRCA broadcasts from the same site as two of the San Bernardino stations, and provides over the air coverage comparable to the other stations in the Los Angeles ADI. Indeed,

it provides predicted City Grade service to the communities served by the CCC system. (See Petition attached to Fouce's Comments, at Exhibit B.) That KRCA will be able, after the amendment of Section 76.51, to enforce its must carry rights on the same copyright royalty-free basis as the other stations licensed to communities in the designated market is, contrary to CCC's argument, a reason in favor of the amendment rather than against it.

CCC goes on to assert, without support, that "as far as CCC can determine[, KRCA] does not broadcast any significant local programming." This statement exhibits a lack of information on CCC's part. As exemplified by the recent issues/programs lists attached as Exhibit A, KRCA produces and broadcasts a variety of programs serving the needs and interests of adults and children within its service area. Moreover, KRCA's program schedule generally provides foreign language programming of interest to minority communities within the market.

In the end, CCC's Comments are, in addition to being immaterial under the Commission's well-established standard for amending Section 76.51 market designations, something of a puzzlement. Although it argues that the proposed amendment should be rejected because it would make it easier for KRCA generally to exercise its must carry rights, CCC has already agreed to carry KRCA on its own system. Exhibit B hereto is a copy of the copyright royalty reimbursement agreement executed by CCC's Vice President, under which KRCA is to be carried for three years in exchange for a promise to pay distant signal royalties, if any, incurred by CCC

as a result of that carriage. Thus, CCC's basis for opposing the inclusion of Riverside in the Los Angeles market designation appears to be moot as well as irrelevant.

CONCLUSION

For the foregoing reasons, in addition to those stated in Fouce's Comments, the Commission should adopt the proposed amendment of Section 76.51 and redesignate market No. 2 as "Los Angeles-San Bernardino-Corona-Fortuna-Riverside."

Respectfully Submitted,

FOUCE AMUSEMENT ENTERPRISES, INC.
